

American Heart Association ACLS Online Course Steps:

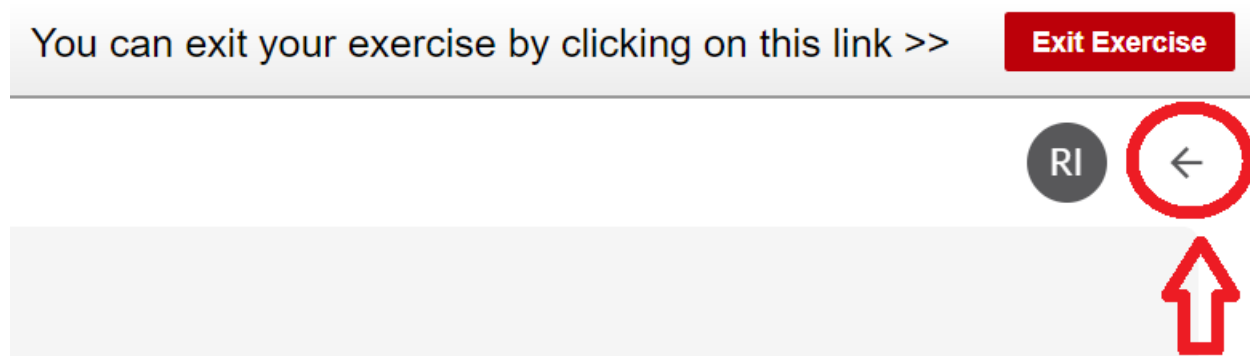

Thank you for enrolling in the ACLS Course!

*This NEW ACLS program has been designed using **adaptive learning technology**, which means that the course will adjust and customize the content based on your level of knowledge and understanding of the material. Please review important course information below.*

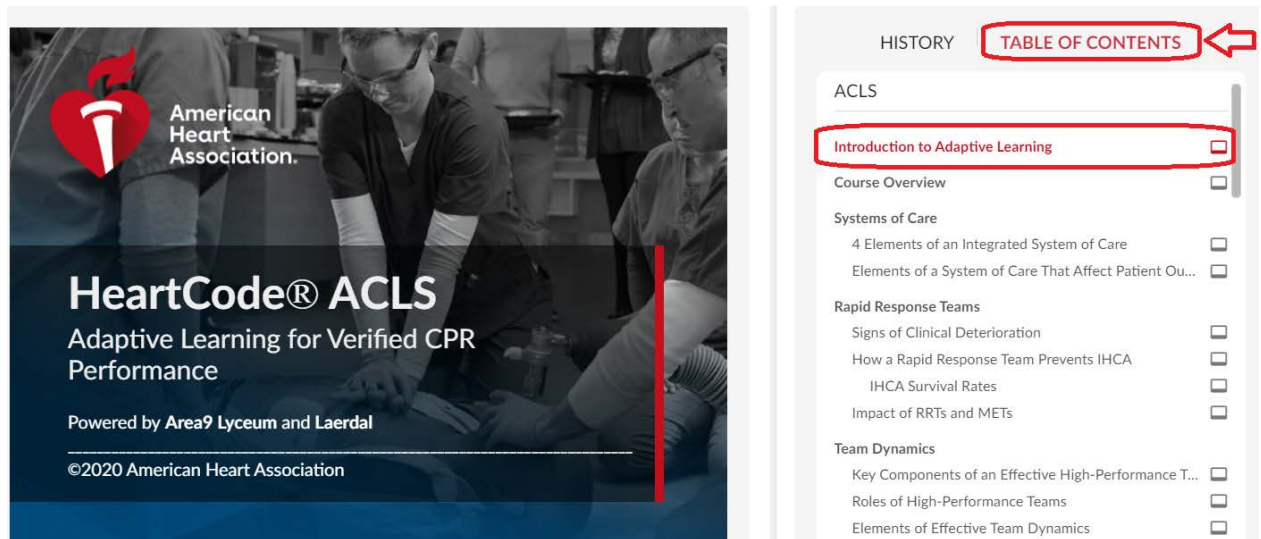

Step 1: After logging in, click the ACLS Module as shown below.

Step 2: On the Top Right of the page, click the Left Arrow to expand the Table of Contents and review the topics covered.

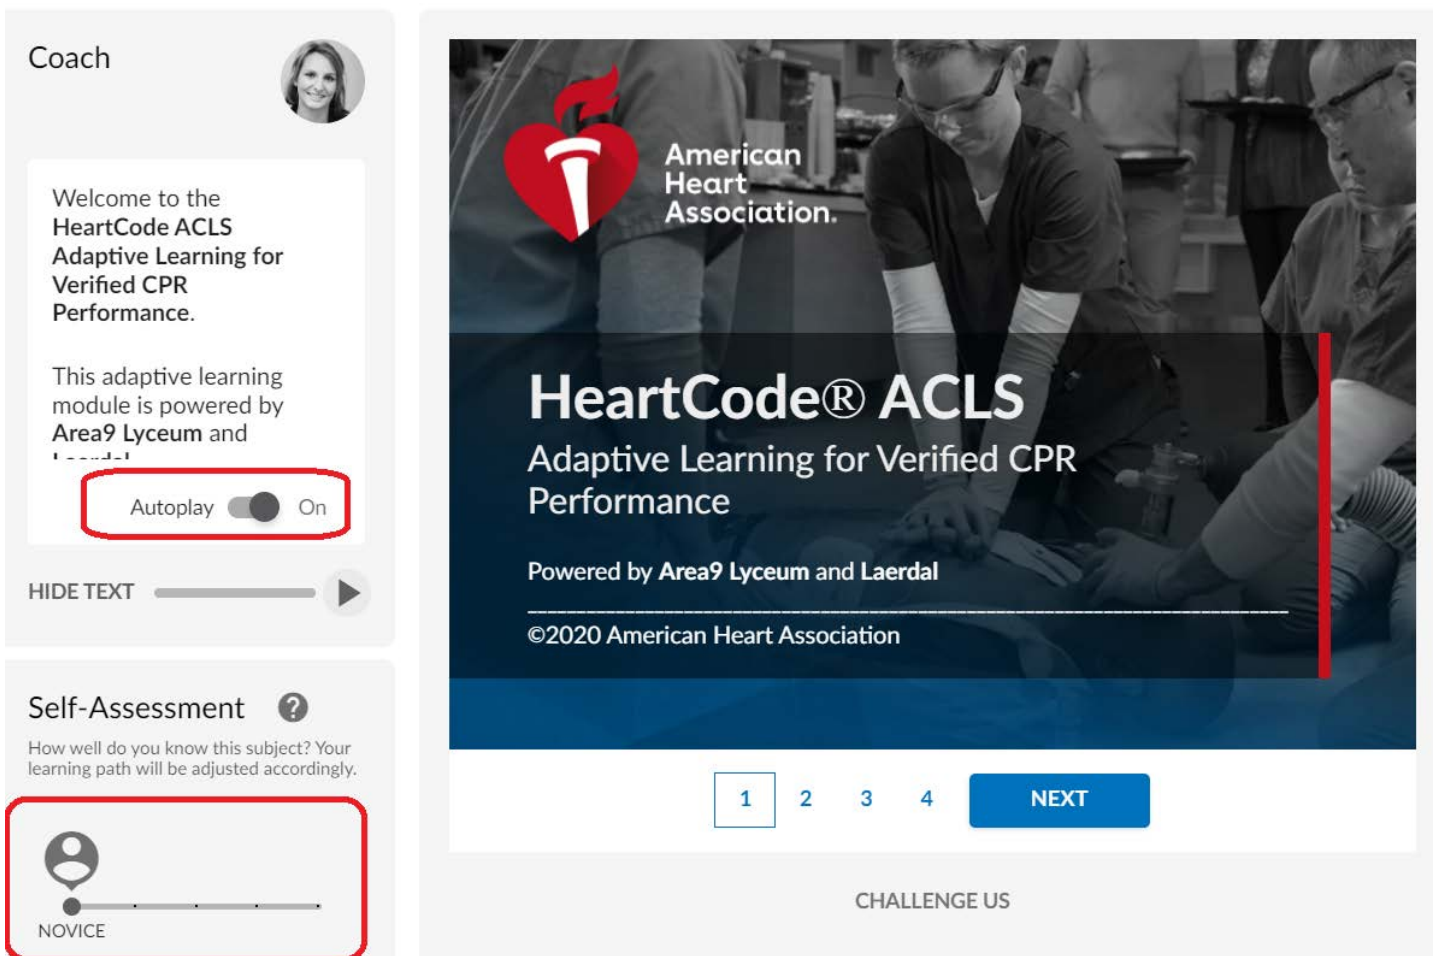

Step 3: Click on Table of Contents tab and then start with the first unit called Introduction to Adaptive Learning.

The screenshot shows the HeartCode ACLS interface. On the left is a large banner with the American Heart Association logo and the text "HeartCode® ACLS Adaptive Learning for Verified CPR Performance". On the right is a "TABLE OF CONTENTS" menu with a red box around the "Introduction to Adaptive Learning" item. Other items in the menu include "Course Overview", "Systems of Care", "Rapid Response Teams", and "Team Dynamics".

Step 4: You can turn Autoplay On or Off as well as Show or Hide Text. Review all of the content at your pace so that you are prepared for your hands-on skills session with the instructor.

The screenshot shows the HeartCode ACLS interface with the Coach panel on the left and the main content area on the right. The Coach panel includes a "Coach" profile, a welcome message, an "Autoplay" toggle set to "On", a "HIDE TEXT" slider, and a "Self-Assessment" section with a "NOVICE" level indicator. The main content area shows the HeartCode ACLS banner and a navigation bar with buttons for "1", "2", "3", "4", and "NEXT".

To reference the ACLS Provider Manual eBook at any time, click the icon on the top left of the course page:
